Dear Parent/Carer

DISABLED PARKING ARRANGEMENTS

It has come to my attention that a number of our parents or carers are using the school car park when collecting and dropping their children from school. This is causing significant congestion and a number of concerns have been raised by staff and members of the public.

We are also mindful that some parents are using the designated disabled spaces. Recently one of our students was injured as someone had parked in the disabled space as she was unable to access safely her parent's car.

Moving forward, can I please urge all parents/carers to exercise greater consideration when collecting and dropping off students. The car park is only available for staff and visitors to the school. I am extremely mindful of our young people's safety and the Governors and I are concerned that there could be a serious accident if parents/carers do not heed this advice.

Yours sincerely

H REDFORD-HERNANDEZ
Headteacher
