Dear Parent/Carer,

RE: Years 7 – 9 Form Representative Nominations

Students in Years 7 – 9 recently took part in assemblies looking at Democracy and the Voting Process in the UK, aligning with the local elections that took place on Thursday 5th May. As part of this, students were introduced to the Form Representative nomination process at Hungerhill School and were invited to nominate themselves to represent their Form Group.

Developing the leadership ability of our students at Hungerhill is a key area that we focus on. This is because we know that young people can have a huge impact on the improvement of a school. Being involved in form representative activities not only improves their transferable skills, but also has a positive impact on their own learning.

Any students wishing to be considered for this role nominate themselves and have been presenting to their form group and tutor. Students have been given guidance on what to include in this presentation but in essence we want to know why they are the right person to be the voice for their form, what skills they have to make them a good form rep and why they want the role. Elections will be held by secret ballot on Friday 9th June.

Our form representatives have a high profile in school and are involved in many wider school initiatives. This year our form representatives have helped at various school events and worked on anti-bullying initiatives such as the Diana Award and the Doncaster LA Gold Award. Form reps will feature in many publicity materials such as the newsletter, school Twitter page, school website etc. With this in mind, students must have full photo/video sharing permissions in order to be on the team.

For students who make it onto the form representative team, we will be holding a celebration event on Tuesday 27th June, 5-6pm. We would love parents/carers to accompany their child to this event and celebrate with us! The event includes: speeches from the Head Boy and Girl, the Head Teacher and a guest speaker; students being presented with their green ties; sandwiches and cakes made in house; the opportunity to use our photo booth and more!

We are thrilled to be able to share such positive news with you – good luck to all students involved!

Yours sincerely,

Miss Z Elson

Associate Assistant Head Teacher: Personal Development
