Year 7 Attitude to Learning Grades

Dear Parents/Carers,

Please find attached a copy of your child's most recent review grades.

Attendance

Our attendance target is that every student achieves 97% attendance or above. Nationally, research shows that excellent attendance is their key to future success and instils good habits for future career pathways. Being in school is also beneficial to students' well-being and self-esteem and provides opportunities to develop friendships and social skills.

Key Stage 2 SAT scores

In year 6, your child will have completed their English and maths National Key Stage 2 assessments. The report includes your child's English and maths scaled scores. The national average score for each of these tests is 100.

Attitude To Learning Grades (AToL)

Attitude to Learning grades are awarded by teachers to reflect the levels of engagement shown towards each of their subjects. The criteria aim to motivate all students; by further challenging all students and rewarding their efforts, while also highlighting those that require further support and guidance to achieve their full potential. We urge all parents to look carefully at the matrix (attached) and consider the criteria. We make no excuses for promoting aspiration, effort and positive work ethic for all students.

The descriptors are as follows:

Excelling - Fully engaged learners striving for excellence every lesson

Committed - Fully engaged learners performing well

Coasting - Passive learners that are coasting

Requires Improvement- Unsatisfactory attitude to learning

Students will be expected to achieve as many 'excelling' and 'committed' descriptors as is possible in all subjects. The Headteacher commends consistently outstanding attitude to learning across a range of subjects. Students' attitude to learning is one of the most important indicators of good progress and outcomes. A positive and committed attitude to learning is crucial for success in terms of results and instilling a work ethic that will improve students' employability in the future. Evidence shows that high levels of attitude to learning can increase the final grade a child receives by up to two grades.

Hungerhill School is part of the Brighter Futures Learning Partnership Trust

Brighter Futures Learning Partnership Trust is an exempt charity regulated by the Secretary of State for Education. It is a company limited by guarantee registered in England and Wales (Company Number 07939747), whose registered office is at Hungerhill School, Hungerhill Lane, Edenthorpe, Doncaster, DN3 2JY

We are committed to encouraging students to become active, independent, self-motivated learners and take responsibility for their own learning. With that in mind, students who require prompting/pushing to complete work and don't necessarily stretch themselves of their own accord will be awarded the 'Coasting' descriptor. Cases of poor or disappointing attitude to learning are fully investigated.

We hope that the information provided helps to keep you up to date with your child's progress and look forward to seeing you at the Year 7 Form Tutor Parents' Evening on 21st October 2025.

Yours sincerely

Mrs K. Crawford
Headteacher

Mrs G. Singleton
Assistant Headteacher

AtL Grade	AtL Descriptor
<p>Excelling (EX)</p>	<p>Students who always demonstrate that they are fully engaged in the lesson, actively showing passion for their learning and an eagerness to achieve their full potential. Their work is always to their best standard. They are self-motivated and exceed routine expectations in their pursuit of learning. They show characteristics of bravery and resilience and are prepared to work outside their comfort zone to develop themselves. Leadership skills may be evident, and they demonstrate maturity when communicating with others. Students are reflective, engaging with written and oral feedback to improve their work, and are also willing to provide constructive feedback to their peers.</p>
<p>Committed (CM)</p>	<p>Students who demonstrate that they are fully engaged in the lesson and show that they are willing to learn. Students are actively listening and participating in lessons, their work is to their best standard. Students work well with their peers to solve problems before relying on their teacher, often viewing their own mistakes as an extended learning opportunity. Their determination ensures that they are solution focused and, where appropriate, support their peers. Students are able to reflect on their learning and identify opportunities for improvement.</p>
<p>Coasting (CS)</p>	<p>Students who arrive at lessons on time and equipped for learning. They usually complete the work set but their level of achievement is below what they would be capable of and have not yet developed the determination to step outside of their comfort zone. There are times when they require more drive to succeed and may need motivation from external sources. Students are sometimes reluctant to participate in group activities or respond to teacher questioning and demonstrating lower resilience. Their appetite for learning is not always evident.</p>
<p>Requires Improvement (RI)</p>	<p>Students who are demonstrating an unacceptable approach to lessons and show characteristics that will lead to them underachieving with their learning. Students regularly fail to engage in their learning and seldomly respond to teacher questions and/or challenge. As a result of this approach, quality of work is not of the level required and the student is not showing the necessary character to fulfil their potential. They can produce work of a satisfactory level but do not drive themselves towards excellence; their work is regularly of a level below what they should expect of themselves.</p>
